SUMMARY

Product Manager with 7+ years shipping products at the intersection of design thinking and technical execution, from payment platforms and identity systems to B2B SaaS and nonprofit digital products across Estonia, Germany, and the US. Comfortable spanning UX, data, and engineering to deliver outcomes that are human-centered and business-driven.

SKILLS

- **Product Execution:** Backlog Management, User Stories, Sprint Planning, Agile/Scrum, Stakeholder Alignment, Requirements Documentation, Cross-Functional Delivery, PRD Writing, Epics, UAT Management
- **Analytics & Tools:** SQL, Excel, Product Analytics, KPI Tracking, Experiment Design, Data Analysis, Dashboard Reporting
- **Tools & Platforms:** Payment Integrations, Merchant Portals, Reconciliation, E-commerce Workflows, APIs, Identity & Authentication, Jira, Confluence, Excel, SQL, Google Analytics, Mixpanel, Google workspace, Microsoft 365

WORK EXPERIENCE

Product Consultant | Taproot Foundation | Part-time, Remote, USA | Mar 2026 - Present

- Leading product strategy and PRD development for mission-driven organizations, including conversion optimization, stakeholder interviews, and developer handoff

Product Manager | ASTM International (Contract) | Remote, USA | May 2025 - Aug 2025

- Streamlined ticket routing workflows in Jira, reducing engineering handoff time by 30% and accelerating feature delivery by 2 weeks per sprint.
- Analyzed subscriber feedback and presented an embedded calculation tool prototype that streamlined standards processing, directly influencing Q4 2025 roadmap priorities.
- Assessed and recommended vendors for translation, chatbot, and AI tools to enhance Product Lifecycle Management workflows.

Product Manager | Coolbet (acquired by GAN Limited) | Tallinn, Estonia | May 2023 – Jul 2024

- Led a six-member cross-functional team (engineering, design, QA) to launch payment integrations processing 400,000+ transactions in the first week following acquisition.
- Spearheaded integration of a virtual credit card solution with banking partners, supporting checkout flow, transaction processing, refunds, reversals, and payment reconciliation.
- Orchestrated rollout of government-backed digital identity authentication for 57,000 users across multiple markets, reducing fraudulent account risk and improving onboarding reliability.
- Defined product roadmap across UX and engineering teams, doubling sprint velocity from 20 to 40 story points and reducing missed deadlines by 75%.

Product Manager | Zageno | Berlin, Germany | Jan 2021 – Mar 2023

- Reduced checkout friction by 50% by leading integration of a virtual credit card solution, eliminating manual payment entry for the operations team across 5,000+ SKUs.
- Identified and resolved operational bottlenecks including address correction, payment autofill, and finance reporting workflows, improving fulfillment speed for 40+ internal users.
- Managed vendor RFPs and conducted market research to guide data-driven feature decisions.

Business Analyst | Ventures Platform | Abuja, Nigeria | Jul 2015 – Aug 2018

- Evaluated early-stage fintech and SaaS startups across pre-seed to Series C, conducting 50+ customer discovery interviews and analyzing competitive landscapes to inform investment decisions and go-to-market strategies.

PORTFOLIO

- fiyinaadeyera.com - Case studies in payments, nonprofit optimization, and product strategy exercises.
