SUMMARY

Product manager with 7+ years across product and venture capital, 4+ shipping payments, identity, and marketplace products in the US and Europe, discovery through launch. Scaled to 57,000 users and 400,000+ first-week transactions. Earlier at a VC fund backing early-stage African startups. Builds hands-on with LLMs.

SKILLS

- **AI & Technical:** REST API, Figma (prototyping), API Integrations, SQL, Jira, Mixpanel, Google Analytics, Python, Flask, Render (deployment), AI-assisted development (Claude Code, Cursor)
- **Product:** Discovery & User Research, Workflow Mapping, Roadmapping, Backlog Management, Agile/Scrum, Stakeholder Alignment, UAT, A/B Testing, Personalization, Conversion Optimization, Platform Roadmapping.

WORK EXPERIENCE

Product Manager | Taproot Foundation | Part-time, Remote, USA | Mar 2026 - Present

- Leading product strategy and go-to-market planning for mission-driven organizations, from stakeholder interviews through developer handoff.
- Advising a client on an AI-assisted website rebuild - scoping requirements, evaluating AI tooling, and reviewing the build.

Product Manager | ASTM International | PA, USA | May 2025 - Aug 2025

- Streamlined ticket routing workflows in Jira, reducing engineering handoff time by 30% and accelerating feature delivery by 2 weeks per sprint.
- Scoped an LLM-based chatbot by defining requirements, evaluating vendors, and recommending a solution that shaped roadmap priorities.
- Introduced AI tooling to the product team - recommended LLM-based approaches for roadmap drafting and data analysis, and showed where AI beats the manual process.

Product Manager | Coolbet (acquired by GAN, European gaming platform) | Tallinn, Estonia | May 2023 - Jul 2024

- Embedded with operations teams to map payment and onboarding workflows before building; led cross-functional team of 6 to ship integrations processing 400,000+ transactions in week one.
- Shipped government-backed digital identity authentication for 57,000 users, cutting onboarding drop-off at key friction points.
- Owned geo-based payment personalization, reordering checkout options by country and locale using A/B testing and market research to maximize conversion across European markets.

Associate Product Manager | Zageno (B2B marketplace) | Berlin, Germany | Jan 2021 - Mar 2023

- Mapped procurement workflows through user interviews and observation, then led integration of a virtual credit card solution that reduced checkout friction by 50%.
- Managed the buyer-facing checkout experience on [zageno.com](#), overseeing procurement workflows and order management across 5,000+ SKUs for 40+ enterprise users.
- Resolved operational bottlenecks across address correction, payment autofill, and finance reporting through user research and cross-functional execution.

Business Analyst | Ventures Platform (Pan-African VC fund) | Abuja, Nigeria | Jul 2015 - Aug 2018

- Conducted 50+ customer discovery interviews across fintech and SaaS portfolio companies, informing investment decisions and go-to-market strategies.
- Supported digital product assessments and contributed to roadmap reviews for portfolio companies across payments and B2B SaaS verticals.

PROJECTS

- SignalRank AI - live AI tool that scores and ranks real events against a user's goals; one of the projects on the [fiyin.org](#) hub.

EDUCATION

M.S. Product Development, Rochester Institute of Technology | Aug 2024 - Dec 2025

M.Eng. Human-Computer Interaction, Tallinn University | Aug 2018 - Jan 2021
